An Amazing Adventure

Is Waiting for You!

Sunrise Pack Station
From the rising of the sun to its setting the name of the LORD is to be praised. Ps. 113:3

2027 Schedule – Pack Trips

All dates are subject to change depending on Yellowstone National Park availability. **The maximum number of guests on each trip is limited to eight people**.
Our desire is to serve YOU! Please feel free to ask about alternate dates and custom trips.

(July 1-3) Exploring the Upper Gallatin River (3 Day) **(0 Booked / 8 Available)** $2,421.00 per person (until 11/27/26)

Spend two nights and three days camped up on the Upper Gallatin River. In this beautiful part of Yellowstone there are good chances to see wildlife near Big Horn Pass, catch some wild trout in the Gallatin River, and enjoy wildflowers in the meadows and hillsides. Our first day will be spent riding up the Upper Gallatin River to a camp right on the river's edge. The following days and nights will be spent hiking, riding, fishing, and playing.

(July 6-9) Slough Creek I (4 Day) **(8 Booked / 0 Available) FULL** $3,228.00 per person (until 11/27/26)

One of the most sought-after places to fish in Yellowstone National Park is Slough Creek. The fish are big, the water is slow, and the scenery is spectacular. We ride in, set up camp, and then concentrate on fishing. At this time of year, we match the many hatches that are coming off the water. These early fish have not seen very many fishermen yet, so they come more readily to the fly. While you are on the river, be sure to look up and take in the surrounding scenery of Gunsight Mountain and Cutoff Mountain.

(July 13-16) Scenic Cache Creek (4 Day) **(0 Booked / 8 Available)** $3, 228.00 per person (until 11/27/26)

On our first day we'll ride eleven miles to the Upper Cache Creek site, where we'll set up our home away from home for the next three nights. The coming days can be spent riding, hiking, and relaxing. We can ride up Cache Creek for some photography as we climb alongside the Thunderer for some great views, or photograph the occasional buffalo, wolf, or bear meandering up and down the trail. Hiking up or down the creek can provide some exciting adventure exploring the bends in the watershed. Our nights will be filled with tales around the campfire, good food, and relaxation. On our last day, after the guides pack things up, we'll head back toward home.

(July 20-23) Specimen Creek / High Lake (4 Day) **(0 Booked / 8 Available)** $3, 228.00 per person (until 11/27/26)

Enjoy Yellowstone's remote Northwest Corner. We will begin at the Specimen Creek Trailhead and ride six miles up our first day to a beautiful camp on the North Fork of Specimen Creek. We will stay in this camp for three nights. The next day we will day-ride up to High Lake and then ride on up to a view overlooking the Yellowstone River on the other side of the mountain range. The third day is a day for hikes or relaxing in camp or a possible day ride into Sportsman's Lake. On our fourth day, we will pack up camp and head back out.

(July 27 - 30) Northwest Corner Family Trip (4 Day) **(0 Booked / 8 Available)** $3, 228.00 per person (until 11/27/26)

This four-day family-oriented trip will take us up to Fan Creek. This backcountry playground is a place for hikes, playing in the creek, playing with the horses, or fishing for trout in Fan Creek. The length of rides here is shorter and easier making it more attainable for those nervous about long rides in the backcountry. Our nights will be spent around the campfire enjoying stories or listening to the howl of wolves. The Fan Creek region has one of the few almost all black wolf packs in Yellowstone National Park.

(August 3-6) Fishing on Slough Creek II (4 Day) **(8 Booked / 0 Available) FULL** $3, 228.00 per person (until 11/27/26)

Another hot spot in Yellowstone National Park's fishing adventure is Slough Creek. Big fish, slow waters, and spectacular scenery make this one of the most sought-after places to fish. We ride in, set up camp, and then concentrate on fishing. By this time of year, the grasshoppers have come out and the fish feed on them heavily, so the fly fishing is sight fishing with great big flies, the fly fisherman's dream. Some of the best hatches come off in the evening so, once you're done eating dinner, feel free to go back down and fish till dark. We'll leave the lantern on for ya!

(August 10-13) Riding on the Upper Lamar River (4 Day) **(0 Booked / 8 Available)** $3, 228.00 per person (until 11/27/26)

One of Yellowstone National Park's premier secluded spots, the Lamar River Valley provides peace and quiet without a lot of other visitors. We will ride up the canyon, out of reach of many of the visitors to Yellowstone National Park, and camp along some pristine waters. We'll spend four days and three nights in one camp on the Lamar. This is a great place to bring your camera. Wolves, bears, buffalo, and elk are all known to frequent these areas. While we're here, we'll discuss the Nez Perce Indians who traveled right through this region as they fled from the army in Yellowstone National Park in 1877 and talk about the geology that resulted in so many petrified trees right beside our camp.

(August 18-21) Enjoying Sportsman's Lake (5 Day) **(0 Booked / 8 Available)** $4,035.00 per person (until 11/27/26)

This five-day family-oriented trip will take us up to Sportsman's Lake. Our first night will be on the North Fork of Specimen Creek after a six-mile ride in. Our next day begins with another six-mile ride taking us to Sportsman's Lake for a three-night stay. Here, guests can fish and play in the lake at their leisure. If someone desires, we can do day rides or hikes out of camp and see other places like Electric Pass, or head out to the Yellowstone National Park boundary on forgotten trails. Play on the porch of the ranger cabin, explore the woods and rocks around the lake, and watch for moose, elk, and deer which often frequent the area. Come join us in this family playground.

(August 24-28) Bechler Waterfalls Trip (5 Day) **(0 Booked / 8 Available)** $4,035.00 per person (until 11/27/26)

Come to Yellowstone National Park's Cascade Corner and explore its many wonders. We start near the Bechler Meadows where on a clear day we can see the Grand Teton Mountain. From this camp, you can hike, play in the crystal-clear cold waters, or ride to a nearby waterfall. Our second camp will be up at the head of the Bechler Canyon where we will hike up to the Ferris Fork Hot Spring to see the thermal features and maybe do a little swimming. Our final day will be spent riding down the beautiful canyon and heading home.

NOTE: Most of Yellowstone's waters contain a variety of sport fish. Many of the creeks we will be on are considered blue ribbon trout streams. Any trip can be customized into a fantastic fishing trip, call for details.
